

Project Objectives

Date	19 November 2022
Team ID	PNT2022TMID13270
Project Name	Project – Machine Learning based Vehicle Performance Analyzer

Objectives of the project are:

- To be able to understand the problem to classify if it is a regression or a classification kind of problem
- To be able to know how to pre-process/clean the data using different data pre-processing techniques
- To be able to analyze or get insights into data through visualization
- To apply different algorithms according to the dataset and based on visualization
- To be able to know how to build a web application using the Flask framework
- To gain an understanding of IBM cloud
